Delivering the Most Advanced Approach to Digital Process Automation

K2 and Blue Prism Partnership Enables End-to-End Business Automation

K2, the industry's leading digital process automation (DPA) platform, has partnered with Blue Prism, a global leader in RPA technology, to transform the meaning of true business automation. K2's low-code DPA platform allows organizations to quickly build and deploy powerful process applications, and with the new Blue Prism integration, companies can now create modern process applications and automate workflows seamlessly, accelerating digital transformation.
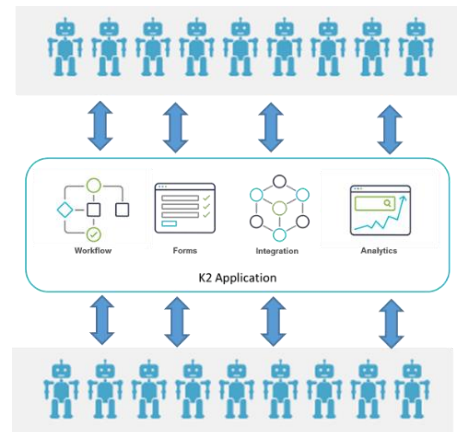

The integration with K2 adds **Planning & Sequencing** and **Collaboration** to Blue Prism connected-RPA – part of Blue Prism's Six Skills for Intelligent Automation, enabling optimized workloads and a Digital Workforce that can work alongside people within the same systems to seamlessly execute business processes.

The native integration between K2 and Blue Prism allows for the flexibility you need to bring a Digital Workforce into your workflow effortlessly. Blue Prism's Digital Workers can start or update inflight K2 processes or K2 can call a Digital Worker to fully automate tasks. This full life-cycle approach allows for humans and Digital Workers to work together seamlessly, in turn reducing costs and improving accuracy, compliance and agility.

As the pioneer of the most robust, secure, and highly scalable Digital Workforce, Blue Prism's focus is on delivering an agile workforce that follows rules-based business processes and interacts with systems in the same way human users do – complementing both traditional and leading-edge IT solutions such as business process management (BPM), OCR, AI, machine learning, and front- and back-office productivity tools.

Using K2 and Blue Prism, organizations can:

- **Accelerate digital transformation**. Build and deploy process applications rapidly to streamline business efficiency.
- **Increase accuracy.** By working together, humans and Digital Workers can implement a system of checks and balances. Digital Workers can reduce human error, while K2 can ensure robots don't fail by getting the right perform involved at the right time.
- **Focus on high-value projects**. Automate repetitive, manual tasks, allowing teams to focus their efforts on projects that provide meaningful business value.
- **Modernize legacy systems**. Breathe new life into legacy systems by implementing modern UI practices that can increase both employee and customer satisfaction.

K2 customers can:	Blue Prism customers can:	Together, customers can:
Enable IT teams to streamline process application development.	Automate repetitive, manual tasks.	Benefit from the best of both worlds to achieve end-to-end process automation.
Empower business users to automate workflows with drag-and-drop tooling.	Manage interactions and exceptions.	**Focus on more high-value projects.**

Maintain control of their processes to ensure security and integrity.	Improve process visibility and exception handling.	Work together seamlessly to transform their processes and their business.

About Blue Prism

At Blue Prism, we pioneered Robotic Process Automation (RPA), emerging as the trusted and secure intelligent automation choice for the Fortune 500 and public-sector market. Now we bring you connected-RPA supported by the Digital Exchange (DX) app store—marrying internal entrepreneurship with the power of crowdsourced innovation.

Blue Prism connected-RPA can automate and perform mission critical processes, allowing your people the freedom to focus on more creative, meaningful work. More than 1,000 major enterprise customers leverage Blue Prism's digital workforce, empowering their people to automate billions of transactions while returning hundreds of millions of hours of work back to the business. Visit www.blueprism.com to learn more.

About K2

K2 is the leading low-code digital process automation (DPA) platform for enterprises seeking to rapidly and intelligently create modern process applications, automate workflows and transform their business. More than 4 million users in over 84 countries, including 30 percent of Fortune 100, are using K2 to take control of their business processes, increase visibility and improve operational efficiency. Discover what you can accomplish when you connect your people, processes and applications at K2.com.
