

# Pintec brings Datatable JOIN Integration to Blue Prism Platform for financial institutions which gives customers the ability to seamlessly join datatable.

In the financial (banking, stock exchange market) industry, we found it exists many operations on datatables that joining two datatables is required frequently. This VBO provides two function to users who can join two datatables such as a currency name with currency code, currency name with Chinese currency name, stock code and stock full name, stock code and stock short name and so on. The user can get a full table after the join operation by one function, and get a smaller inner joined table after using the InnerJoin Datatable function. *+ Problem Solving*

## Consolidation and merging of various data into a single data warehouse for better accuracy and efficiency.

Allows tying of different pieces of data in an organisation together, and enables them to start asking and answering more challenging questions about it. Yet often it is getting the data into their database or a data warehouse and keeping it up-to-date that is a challenging task. This is especially true if they have multiple sources of data living in completely different places. With the integration all of their data in a single data warehouse, the quality, accuracy and efficiency is ensured.

## Pintec & Blue Prism: Automate Your Data Consolidation and Management

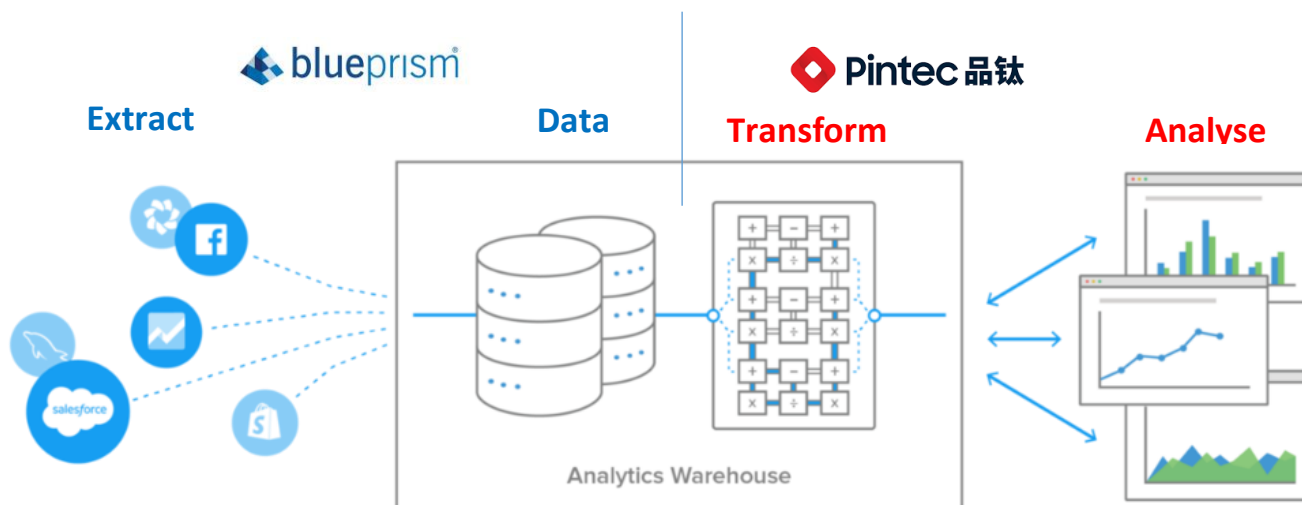

Together, Pintec and Blue Prism provide the following customer benefits:

- Increase data integrity across various databases.
- Reduces resources required with manual datatable JOIN processes and execution
- Consolidation of multiple datatables

Scalable and configurable with changes and additions to databases

## Summary

Pintec helps organisations consolidate and manage multiple databases in a single Data Warehouse with Blue Prism automating the end to end processes, enabling organisations to perform analysis and reports with greatly enhanced accuracy and efficiency.

### About Blue Prism

As the pioneer, innovator and market leader in Robotic Process Automation, Blue Prism (AIM: PRSM) delivers the world's most successful Digital Workforce. Blue Prism provides a scalable and robust execution platform for best-of-breed AI and cognitive technologies and has emerged as the trusted and secure RPA platform of choice for the *Fortune 500*.
