INVOKE's Robotics as a Service (RaaS) delivers a turnkey Cloud solution to RPA infrastructure for Blue Prism. A secure, scalable solution managed by Blue Prism and infrastructure experts.

Blue Prism's Technology Alliance Program (TAP) partnership with INVOKE adds Robot as a Service (RAAS) solution to Blue Prism Robotic Process Automation (RPA) to **achieve operational excellence and reduce business costs.** This integration with INVOKE + Robot as a Service (RAAS) adds the critical skill of Collaboration to Blue Prism Intelligent Automation, giving enterprises the ability to start quickly with a secure and optimized RPA infrastructure in the Cloud with already all the Blue Prism Digital Workers configured and ready for action.
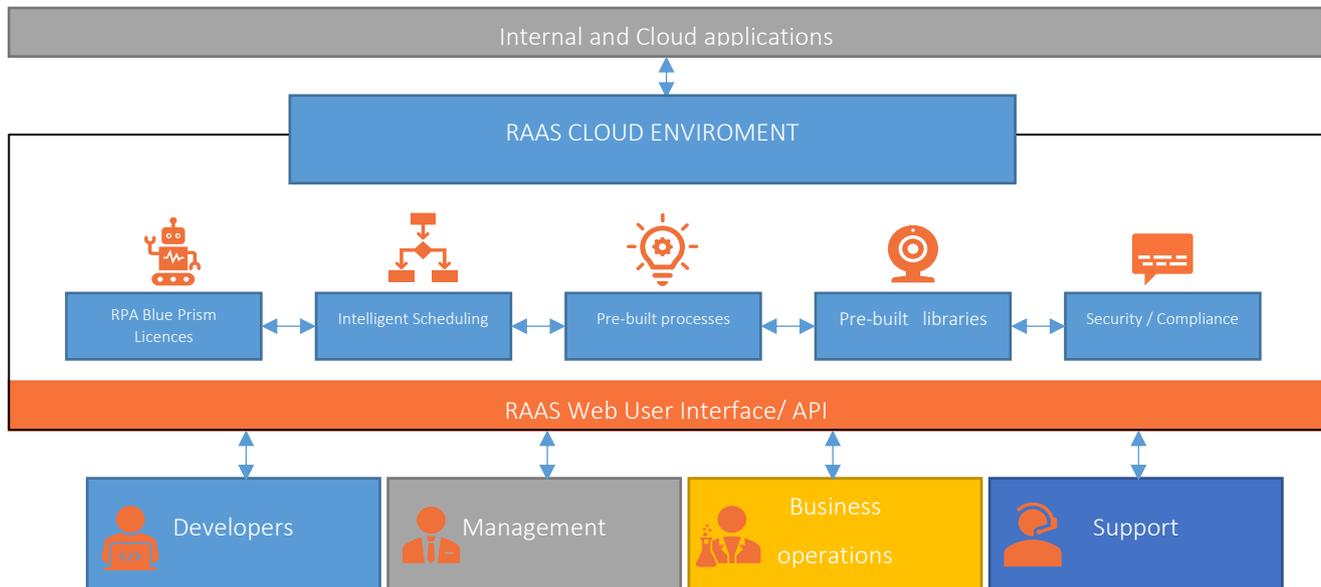

Start quickly and scale smartly while controlling your infrastructure costs. INVOKE technology adds a **preconfigured optimized and secure cloud environment** to your Blue Prism's Digital Workforce.

The combination of INVOKE RaaS technology and Blue Prism's Digital Workforce gives enterprises the flexibility to easily scale their automation journey making software upgrades, set ups and configurations a thing of the past. Robot-as-a-Service, RaaS for short, eliminates key challenges to making an automation program successful while ensuring all benefits of an on-premise deployment remain intact.

Enterprises use RAAS and Blue Prism to create a Digital Workforce in the cloud that can deal with the tedious, bureaucratic processes in your organization 24/7/365 and leave your staff with the capacity to work on more high-value tasks. Our RAAS solution is dedicated to your enterprises, not shared. This dedicated landscape ensures data remains separate and access to your system applications is controlled and audited effectively. Additional highlights of the RAAS solution include:

- **Blue Prism licensing:** single stop for automation licenses of Blue Prism and AI skills.
- **Blue Prism infrastructure management**: fully managed always up to date and secure environment optimized for your automations.
- **Business User interface**: web-based interface allowing business users to control execution and schedule of their business processes.
- **Advanced automation scheduling**: get the most of your resources. With advanced scheduling options you always know what is happening with your automated processes.
- **Pre-built libraries**: take advantage of pre-built connectors and libraries for developers to jump start development
- **Pre-built processes**: why reinvent when you can reuse. Invoke has invested in building out common processes. Speed up tour automation journey.
- **RPA experts at your fingertips**: when using Invoke RaaS you gain access to the expert hotline. Our mentors are only a phone call away to assist you with any questions. Never get stuck again.

- **Compliance**: INVOKE's RaaS is a dedicated solution. This simplified supports for your compliance requirements. The solution supports GDPR and is PCI certified.

As the pioneer of the most robust, secure, and highly scalable Digital Workforce, Blue Prism's focus is on delivering an agile workforce that follows rules-based business processes and interacts with systems in the same way human users do – and that complements both traditional and leading edge IT solutions such as business process management (BPM), OCR, AI, machine learning, and front- and back-office productivity tools.

Blue Prism & RAAS: Unlock the benefits of cloud automation

INVOKE's RAAS solution with Blue Prism helps its clients achieve:

- **Rapid deployment**: benefit from RPA with limited reliance on IT, while remaining fully aligned with IT and Security stakeholders.

- **Smaller upfront investment**: lowers the barrier of entry, allowing you to build your RPA processes with far less concern about ROI against the upfront investment costs.

- **Controlled ongoing costs**: full cost transparency for ongoing environment support and automation investments.

- **Cloud benefits**: leverage options as needed, in a highly scalable, modular and secure environment that supports business demand fluctuation.

- **Organizational ramp up**: as internal demand grows, focus on the best RPA opportunities without concern of resource or financial limitations.

- **No implementation hassles**: Focus on what maters the most for your business leave the labor to the bots in the cloud.

Summary

NVOKE's Robotics as a Service (RaaS) solution allows you to get started quickly with an optimized RPA environment just for you. Delivered in your private Cloud and serviced by seasoned Blue Prism experts. With RaaS you not only increase the speed to get started but you avoid the pitfalls as you scale your automation initiative. Take advantage of our lessons learned over the past years of hard work and jump into an optimized approach to RPA infrastructure.

About Blue Prism

As the pioneer, innovator and market leader in Robotic Process Automation, Blue Prism (AIM: PRSM) delivers the world's most successful Digital Workforce. Blue Prism provides a scalable and robust execution platform for best-of-breed AI and cognitive technologies and has emerged as the trusted and secure RPA platform of choice for the *Fortune 500*. For more information, visit www.blueprism.com.

About INVOKE

INVOKE is on a mission to make intelligent automation technology easily accessible to any organization. Headquartered in Atlanta, USA with offices in North America and Europe, INVOKE has deep domain expertise with over 80 certified RPA and Intelligent Automation practitioners with experience in delivering over 500 process automations. As a Blue Prism partner for the last 3 years, INVOKE continuously invests in building solutions for organizations to accelerate success and scale within the automation journey including Robotics as a Service (RaaS), Team as a Service (TaaS), Pre-built processes and pre-built building blocks for developers.
