

# Clear Software extends the power of Blue Prism by enabling advanced business process automation across the enterprise

Blue Prism's Technology Alliance Program (TAP) partnership with Clear Software adds the power of ClearWork to Blue Prism Robotic Process Automation (RPA) and enables advanced business process automation across the enterprise. Integration with Clear Software's ClearWork allows Blue Prism Intelligent Automation to scale to hundreds of thousands of users across mission critical front office business processes, providing advanced end-to-end process integration, orchestration, and optimization capabilities.

The Blue Prism/ClearWork integration allows enterprises to combine the best of RPA with advanced business process management and integration capabilities. Blue Prism customers can now easily optimize very complex business processes spanning multiple enterprise systems, extending and scaling RPA into virtually any process across any systems.

## ClearWork

A configurable Business Process Management (BPM) engine that orchestrates business processes into a seamless digital experience. ClearWork gives workforces simple web pages to get their jobs done quickly with powerful automations hidden behind the scenes.

- Simplifies how users interact with complex business processes
- Orchestrates business processes in a seamless, unified digital experience
- Rapidly delivers apps as business needs change through a drag-and-drop editor
- Scales to hundreds of thousands of users across mission critical business processes
- Brings robots to your workforce's fingertips to increase productivity and reduce errors
- Automates processes and tasks across siloed legacy systems
- Dramatically reduces training. Watch your workforce quickly grasp and adopt an intuitive user experience
- Dramatically improves productivity

## ClearProcess

A configurable Intelligent Process Automation (IPA) engine that uses bots to automate tedious tasks and complex workflows across systems. ClearProcess enables automations ranging from a single step task to an end-to-end business process that may involve hundreds of tasks.

- Thousands of pre-delivered automations for SAP, Salesforce, Oracle E-Business Suite, PeopleSoft, and other packaged software
- Clear bots work in parallel with bots from Blue Prism
- Create a single source of truth by streamlining data and functionality across systems
- Scale to hundreds of thousands of users across mission critical business processes

## ***Use Intelligent Process Automation to protect and extend your business software investments.***

As the pioneer of the most robust, secure, and highly scalable Digital Workforce, Blue Prism's focus is on delivering an agile workforce that follows rules-based business processes and interacts with systems in the same way human users do – and that complements both traditional and leading edge IT solutions such as business process management (BPM), OCR, AI, machine learning, and front- and back-office productivity tools.

As the leader in Intelligent Process Automation, Clear Software is on a mission to simplify business software and make people more productive. Our Intelligent Process Automation (IPA) platform has been purpose-built for the enterprise, streamlining complex, multi-task front office business processes across platforms such as SAP, Oracle, Salesforce, and many other cloud and premise applications.

### **About Blue Prism**

As the pioneer, innovator and market leader in Robotic Process Automation, Blue Prism (AIM: PRSM) delivers the world's most successful Digital Workforce. Blue Prism provides a scalable and robust execution platform for best-of-breed AI and cognitive technologies and has emerged as the trusted and secure RPA platform of choice for the *Fortune 500*.
