

# Workshops

## Professional Developer

This advanced hands-on training provides skills to build more complex automations taking your program beyond basic RPA.

### What is a Success Workshop?

Our workshops are role-based, hands-on training sessions that cover the most popular skills Blue Prism users need. They are delivered as described herein or customized to meet specific requirements of your team. Facilitated by a certified Blue Prism expert, your team is trained and guided in a private course dedicated to their success.

### Why choose Professional Developer?

This workshop will enable a developer to undertake more complex tasks and automation development that comes with more complex automations and as your program scales.

### Prerequisites:

- ✓ Blue Prism Developer Certification
- ✓ 6-months experience after receiving certification
- ✓ Completion of the Professional Developer Certification Prep

### What to expect:

- Your methodology and development best practices, along with 3 use cases analyzed and scrutinized by an expert
- Best approach to scale
- Digital Exchange Skills
- Login Agent
- Citrix spy mode
- Modern Browsers Spy

### VALUE AND OUTCOMES:

- Instructor-led, hands-on guided training sessions
- Open and fluid exchange of ideas and lessons learned
- Social interaction with other teammates during training
- Validating current practices
- Faster response to student questions and direct instructor feedback on skill application

### Course Delivery Options:

- This is a 2-day workshop
- Can be delivered virtual or onsite at your offices
