Product Upgrade Assurance

The fastest way to successfully implement and gain value from digital workforce upgrades and new releases.

The Product Upgrade Assurance package provides validation and support for all aspects upgrading to the latest version of Blue Prism—including a full review of the existing infrastructure running your digital workforce.

What is Product Upgrade Assurance?

The product upgrade assurance provides a phased approach, individually tailored to enable a successful Blue Prism product upgrade. Once establishing the customer's upgrade ambitions, support and guidance will be provided through the upgrade project:

- Overview and comparison of upgrade approaches and other considerations including identification of the recommended upgrade target and strategy
- Assurance to create a performant and scalable Blue Prism digital workforce platform
- Establishing a reusable and robust Blue Prism upgrade framework
- Upgrade planning, regression testing and go-live support and guidance.

Why Choose Product Upgrade Assurance?

With guidance form Blue prism experts, businesses can quickly and successfully implement product upgrades to take advantage of the latest product functionality and improve the efficiency, productivity, and capabilities of the digital workforce.

VALUE AND POTENTIAL OUTCOMES:

- Expert guidance on upgrade strategies, considerations, and best practice recommendations
- Assurance that the infrastructure setup is secure, scalable, persistent, and enterprise strength.
- Enablement on establishing a reusable and robust upgrade framework.
- Implement a more efficient regression testing and upgrade.
- Test and Go-Live support to ensure a smooth path to a successful upgrade project.
