

Robotic Operating Model™ (ROM) Assessment

The best way to ensure you've mastered the seven foundations upon which to build a strong, secure, and scalable intelligent automation program.

The ROM™ Assessment is a deep dive into your organization's implementation, adoption, and successful execution of all seven pillars upon which a solid foundation is built.

What is the ROM™ Assessment?

The ROM™ Assessment evaluates your maturity and alignment against industry standards & best practices, identifies areas for additional training or upskilling of staff, and provides guidance to the team on efficiency methods that can maximize ROI.

Why ROM™ Assessment?

With the ROM™ Assessment we will provide a comprehensive view and roadmap of short- and long-term actions to best meet your Digital Workforce requirements. The objective is to help you build a scalable, sustainable, and resilient intelligent automation program.

What to expect:

- A careful evaluation of the seven foundations as deployed within your COE, and federated model when needed.
- Technical infrastructure review to analyze the environments and technical components deployed.
- In-depth look at existing processes and VBOs.
- Assessment of development time and delivery methodology to identify gains for improved license utilization.
- Appraisal of the evolution of the COE, the team and organization structure to identify barriers to growth and value realization.

VALUE AND OUTCOMES:

- A ROM™ Capability Maturity Report including benchmarks comparing the infrastructure with best practices.
- Justification on investment in the COE which can be presented to internal key stakeholders.
- Recommended improvements or changes necessary to achieve what is needed to get to the next level of Intelligent Automation or to improve upon stability, consistent operational performance, and scalability of the Digital Workforce.
- A clear picture of where you are against best practices and industry standard benchmarks.

Contact your Blue Prism account manager to ensure you're building on a solid ROM™ foundation today!

Blue Prism is the global leader in intelligent automation for the enterprise, transforming the way work is done. At Blue Prism, we have users in over 170 countries in more than 2,000 businesses, including Fortune 500 and public sector organizations, that are creating value with new ways of working, unlocking efficiencies, and returning millions of hours of work back into their businesses. Our intelligent digital workforce is smart, secure, scalable, and accessible to all; freeing up humans to re-imagine work.
